Three B.C. Men Held

Stock Swindle Arrests Made

HULL, Que. (UPI) — Five men have been charged here with operating what police believe may be part of a multi-million dollar international stock swindle.

The five, along with telephones, "sucker" customer lists and stock charts, were arrested Wednesday night when police raided the group's centre of operations in nearby Gatineau Hills.

Names given police by the arrested men were Roger Dufour, 44, of Rimouski, Que., and Ludovice, Ga.; Leslie L. Woodson, 31, of Calgary; J. Oliver Moss, 30, of Vancouver and Ottawa; Saul Kohn, 33, of Vancouver and Seattle; and Garfield Regan, 31, of Vancouver.

A Quebec Provincial Police detective said a dragnet was out in the district for at least two other suspects.

Investigators said the "boiler room" operators worked by slipping non-existent or unreliable stocks into a quick-paced, listing of bona fide securities, and that the volume of business involved ran into "the millions of dollars."

No Arrow to Fly? Decision in Month

TORONTO (CP)—The Globe and Mail quotes Defence Production Minister O'Hurley as saying final disposition of the nine CF-105 Avro Arrow interceptors will be decided within a month.

Story quotes Mr. O'Hurley as saying that in his opinion, the Arrow will never fly again.

Single Pylon Supports Span

Rising over the Rhine, this huge triangle of steel and concrete will serve as the sole support for the fourth bridge erected across the famed river near Cologne. River traffic is heavy and new bridge will be suspended from single pylon located near one shore. Huge cables will eliminate need for second support from the river bed.

Revolutionary Engine Invented

No Limit to Speed on Water

AZUSA, Calif. (AP)—A new water jet engine to drive boats and ships at almost incredible speeds were disclosed yesterday by scientists at Aerojet-General Corporation.

"We know we can increase the speed of hydroplanes by at least 75 per cent," said Calvin Gongwer, head of Aerojet's anti-submarine warfare division. "Theoretically there is no limit to the speed that can be reached by vessels of any size, with proper hull design."

The revolutionary device, called the hydrocket, has no propellers. Instead an impeller, something like a lawn sprinkler whirling at terrific speed, drives the boat forward by spraying water into the air behind it.

The company plans to install a high-speed hydrocket in a racing craft for time trials this summer.

"We are confident it will break every speed record for propeller-driven boats," Gongwer said.

Donald Campbell's air-jet hydroplane clocked 248 miles an hour in 1957, the standing record.

"Campbell's boat used an aircraft jet engine. We can do the same thing with conventional power plants requiring much less horsepower and much less fuel," Gongwer said.

Patched-Up Freighter Limps in for Repairs

VANCOUVER (CP) — A hole in her bow patched up with canvas and sheets of tin, the Northland Navigation Co. freighter Nootka Prince returned to Vancouver yesterday under escort by a salvage tug.

The Nootka Prince, one of the oldest freighters operating on the B.C. coast, was holed Saturday when she struck a rock in Nootka Sound, on the west coast of Vancouver Island.

Courtroom Parade

Contractor Fined For Failing to Keep Correct Records

A Saanich building contractor was fined $25 on each of two charges in police court yesterday following conviction for failing to make documents available and failing to keep proper records.

Carlos Bellagente, operating under the name of Dunedin Construction Co., 3499 Cook, was found guilty after trial by Magistrate William Ostler.

Court was told the company was ordered by the Unemployment Insurance Commission to have all records and documents covering 1957, 1958 and to date this year ready for inspection, March 6.

Inspectors arriving that day were shown only records for January and February of this year.

In addition, the magistrate found that employment records for the period had not been kept in a proper manner.

Douglas Wayne Tenning, 3211 Maple, tried last week on an impaired driving charge, was convicted yesterday, fined $250 and remanded for disposition of his driver's licence.

* * *

In city police court yesterday Herman Leroy Redlin, 1157 Johnson, was sentenced to 10 months in jail for breaking, entering and theft, and to two months each, all concurrent, on two charges of false pretences.

First charge followed his arrest after a break-in at Benny's Grill, 1020 Blanshard.

Other two charges, on which he was convicted, involved conversion of money paid in to gasoline accounts at the Reg Graves service station, 1518 Pandora.

Magistrate Ostler pointed out to accused that his chief problem appeared to be alcohol, and said he hoped accused would apply to go to Haney Correctional Institute where he might get further trade instruction and "get the alcohol out of your system."

* * *

William Charles Shaw, 1601 Esquimalt, was fined $15 when he pleaded guilty to being a minor in possession of liquor. The 20-year-old youth was checked recently at 2.30 a.m. at the corner of Yates and Douglas, and found to have a bottle of gin in his possession.

Six-Seater Canoe Holds 56, Sinks

HONOLULU (AP)—Hawaiians came up Thursday with their own version of the phone booth and other stuffing craze.

Fifty-six persons at Waikiki Beach stuffed themselves into an outrigger canoe which normally holds six.

Air Staff's First Chief Dies at 65

VANCOUVER (CP)—Funeral services will be held today for Air Marshal George M. Croil, Canada's first chief of the air staff, who died here Wednesday aged 65.

Air Marshal Croil began his military career in 1915 as a captain in the Gordon Highlanders. It was climaxed by his appointment as inspector-general of the RCAF following his appointment as first chief of the air staff in 1938.

Air Marshal Croil retired from the RCAF in 1944.

Born in 1893 in Milwaukee, Wis., he moved to Montreal at the age of 11 and later to Scotland. After working there as a civil engineer he joined the Highlanders and a year later the Royal Flying Corps.

Released with the rank of major from the Royal Air Force shortly after the end of the First World War, he returned to Canada and was commissioned as a squadron leader in the Canadian air force on its formation in 1920.

Many types of cancer can be cured by radiation or surgery, or a combination of both. Regular medical check-ups on persons over 40 years of age may reveal cancers in a curable stage.
